silicone **1200 GC***

Product Description

1200 GC silicone is a one part acetoxy silicone sealant, which cures with atmospheric moisture to form a rubberlike seal for specialised glazing applications, joint sealing and assembly. 1200 GC silicone is unaffected by high or low temperatures and its physical properties are designed to give excellent durability and performance. 1200 GC silicone has a good adhesion to non-porous substrates like glass, ceramics, some metals and coated surfaces.

Key Performance

- UV-resistant
- Excellent durability
- Unaffected by high or low temperatures
- Weathering resistant
- Mildew resistant

Key Applications

- Glazing
- Construction
- Joint Sealing
- Bonding
- Assembly
- Bathroom & Kitchen

Material Adhesion

1200 GC silicone has good adhesion to glass, glazed surfaces, some plastics and metals and coated surfaces. Some surfaces require the use of a primer.

1200 GC silicone is only available in limited number of countries.
